NEWSLETTER 7

16TH SEPTEMBER 2019

PRINCIPAL'S REPORT

It is always exciting to review our Term 3 learnings, as we are about to send our Year 12 students on their way into the HSC examinations.

We are all very confident that all of our students have been given the best support possible for them to improve on their skills and knowledge throughout their schooling years. I know that most of these students have a next step in mind for their future and we all wish them the best of luck in their future learning, which will include work, training, and life in general.

Good Luck Year 12

Evacuations & Lockdowns

What are the situations where these will be called?

You would have received a text message last week which informed you that we had a need to remove students from the playground. There are many situations that might trigger this decision. These decisions are not taken lightly and are always made with the safety and security of the students as the number one priority.

During these moments, students either remain inside classrooms or are directed into classrooms until the all clear is given via the school bells. Following these events, I must inform the police, School Safety & Security and the school will always inform you via a text message that this has taken place.

I ask that whenever you receive a text like this, that you ask your child about how they are feeling about the events of the day and please call the school if you would like any further assistance or advice.

Bush Fire emergencies - It is looking like we will be having a very busy bushfire season, we have specific procedures that have been designed to ensure the safety of all people on site. A summary of our Emergency & Evacuation procedures are attached.

INTRODUCING OUR NEW LEADERS

Congratulations to the following students who have successfully achieved a leadership role in the school for 2020.

When we were interviewing the applications, it was very humbling for these students to be able to describe leadership as much more than “doing more” than others. They were very clear that their future roles will be mostly about showing other students and the community that “doing your best” and working on your “next steps” is key in learning. I would like to acknowledge these students and their willingness to be a part of the leadership of Scone High School.

EXCURSIONS & NEWS

CHOCOLATE CHIP EXCAVATION

Year 7 students recently practised their archaeological skills by excavating chocolate chips from cookies using toothpicks!

Learning Outcome:

Year 7 will simulate the process of archaeological excavation as they "excavate" the chocolate chips in cookies. They will discover how excavation is both destructive and scientific. They will practise coordinate graphing skills by mapping the results of their excavations.

BUS STOP EXPECTATIONS

Just a reminder for all students whilst waiting at bus stops please be respectful and mindful of other people and their property.

Whilst waiting please do not climb trees or walk through property owners yards, if you have rubbish please make sure you take it with you.

NATIONAL STUDENT LEADERSHIP CONFERENCE

In March, "Where There's A Will" sponsored a group of emerging leaders from the Upper Hunter to attend the National Student Leadership Conference in Adelaide. Four students each were nominated by St Joseph's Aberdeen, Scone Grammar School, Merriwa Central High School, Muswellbrook High School and Scone High School.

At this event, we learnt and developed skills that we can use to our advantage within our own leadership journeys, but also how we can encourage others to be more effective people and leaders. Using what we took from the conference, we all worked together to create and develop our own summit, focusing on the themes of leadership and wellbeing, combining them and delivering it to 110 students from years 10/11.

In our own summit, we addressed topics such as qualities that build the best leaders, how to be more effective as a person and a leader, and incorporating the 4D process, to introduce a well-being activity in the surrounding schools.

After the completion of the Upper Hunter Youth Well-Being Summit, a group of 6 students that were nominated from the 20 students, were offered a chance to deliver another well-being summit at Tweed Rivers High School. In August, we flew to the Gold Coast to present to a group of 50 students from year 9-12.

From all of these experiences, everyone who was involved has benefited largely. We have developed and also gained new skills to be more effective leaders. Special thanks to "Where There's A Will" for allowing us to have these opportunities, and to Lindy Hunt for her support and assistance throughout the process for these summits.

STATE ATHLETICS

Congratulations to Year 7 student Emily Taylor who competed at the NSWCHS State Athletics Carnival last week in shot put. She finished 14th in her age group at this carnival. This is a fantastic achievement- well done, Emily!

NETBALL GALA DAY

On a cold and wet Friday students in Year 7-10 competed in a netball gala day against Scone Grammar School. Our Year 9 and 10 girls fought hard for four quarters, but unfortunately their opponents were too strong. Emily Watts was named players' player for her strong performance and motivational attitude.

Our Year 7 and 8 girls came away with a convincing win. Brenna Crompton was named players' player for her strong defensive skills. Special mention must go to Rylie Fletcher in Year 7, who played her first ever organised game of netball and absolutely smashed it. I would like to take this opportunity to thank the girls for help setting up the venue and for the generosity by voluntarily offering to umpire if they were needed.

FOOTBALL GALA DAY

On the 30th of August, Scone High School took an under 14's and an under 16's teams down to Scone Rugby Union Fields to verse Scone Grammar School in the SGS Challenge.

The boys played very well, drastically improving over the day considering most of them haven't played rugby before. Unfortunately for us the Grammar school prevailed over us winning both games. Under 14s man of the day was Jackson Smith and under 16s was Connor Poeschl.

We would like to say a massive thank you to Mr Constant for training us and supporting us in a sport we love. Giving us the opportunity to place ourselves in this event. It was a huge learning curve for some and just some fun and enjoyment for others. We look forward to having another crack at it next year.

Jack Coady & Bailey Le Brocq

7 & 8 TOUCH FOOTY

On Friday 13th September 2019, students from Years 7 & 8 at Scone High School travelled to Newcastle to compete in the 7 & 8 Touch Footy State Qualifier.

The competition was fierce with 58 teams from across the Hunter region competing for a place to go through to the state titles.

Scone HS took down a boys and a girls' team and played 5 games in their respected pools which was a massive effort considering we only had two subs on both teams.

The boy's team won their first two games convincingly and drew their third against Rutherford THS. The boys then had their biggest challenges for the day coming up against St Peter's Maitland and St Joseph's Aberdeen. The boys tried hard but unfortunately ran out of puff losing both games to finish third in the Pool. A very good effort!!

The girl's team managed to get a win and a draw in their pool but like the boys, come up against some super-fast and skilful teams. Everyone gave 100% throughout the day and improved considerably.

Thanks to parents and caregivers for driving the students down and providing those with the opportunity to compete against some of the best touch footy schools in the state.

AUSTRALIAN MATHEMATICS COMPETITION

Excitement is contagious. And steadily, excitement rose at Scone High School as Thursday 1st August approached.

The reason for the excitement?

The 2019 Australian Mathematics Competition, (AMC), would run again, challenging thousands of Australian students to test themselves. The AMC is tough! Attracting students from all over the nation, it focuses on problem solving, challenging students to use their mathematical understanding to calculate answers to some very tricky maths conundrums.

Our excitement was seeing 25 Scone High students make the courageous decision to attempt the premier mathematics competition in Australia. Students in Years 7, 8, 9, 10 and 11 entered. In 2019 Scone High School nearly doubled its number of entries from 2018. 25 students compared to 13 the previous year.

A month later the results were released by the Australian Mathematics Trust and Scone High School students demonstrated another quantum leap in performance.

This year we achieved 5 Credit results, including a percentile rank of 71 for Dylan Denley in Year 9. This places Dylan within the top 29% of competition entrants in the Intermediate Section, (Years 9 and 10), Australia wide. Congratulations Dylan!

In addition we recorded 14 Proficiency, (Pass), results with the remaining students being awarded Participation Certificates.

Certificates will be sent from the Australian Mathematics Trust in Term 4, hopefully in time to see competitors receive their reward at a formal assembly in the presence of their families and all of the gathered Scone High School students and staff.

Although most participants have already received their rewards. First, each entrant has been rewarded with the knowledge that they attempted something really tough and, irrespective of their individual result, each knows that doing 'hard things' has added to their character. They will know that they can face this challenge again and face other completely unrelated challenges equipped with the perseverance to see them through. Second, most of the entrants enjoyed a pizza lunch on Monday 9th September. Pizza never tasted so good!

And what of 2020?

Perhaps to "infinity and beyond"!

TELL THEM FROM ME – PARENT SURVEY

Scone High School is collecting data from parents and teachers using an online survey in order to clarify and strengthen the important relationship between parents/carers and the school regarding student engagement. The survey is completely anonymous, and the results will form the basis for our new planning cycle. Please log on to the survey site below:
